Peace_9 fits the SQ23 Hoop for the MC12000 and MC15000 in a single hooping. It stitches out one half at a time, so the colors repeat. For best results, do not color sort. Print the template for the design. Overlap the two halves of the design to create a complete pattern with a placement crosshair. The template can be used to mark the placement of the embroidery design.

17. Sunflower            Flower centers and French knots

Peace_12.5_A and Peace_12.5_B are stitched in the new 8 x 14" hoop made for the MC550E Embroidery Machine. The design is stitched in two halves using two hoopings. Print the placement template for each half of the design. Overlap the design to create a complete pattern. Place the pattern on the fabric in the desired position. Mark the placement crosshairs, and remove the pattern. Hoop the fabric, placing the crosshair on the left centered in the hoop. Embroider the design. When the embroidery is complete, hoop the fabric with the crosshair on the right centered in the hoop. Double check the alignment by advancing the stitches for the positioning crosshairs. Stitch 1 should match the center point of the coordinating crosshair of the first half of the embroidery design. Continue advancing the stitches to check the alignment of the second crosshair. Adjust the position if necessary. Embroider the second half of the design.

# PEACE WORD

Embroidery File

**Peace Word with Flowers_14**
**44088 Stitches**
**360 mm x 126 mm (14" x 5") — 15 Colors**

1. Lt Brown                          Background stems
2. Lt Evergreen                 Background tendrils
3. Taupe                              Letter outlines
